Comments

a) the course

- I feel this lab was strong in dealing with key course topics in a more complex and intellectually challenging way This lab made me think about class topics in a way I hadn't before overall improving my understanding of the course material
- math heavy hurty me brain but good hurty
- the team design lab was entertaining and constructive as we did work in physics lectures

b) the instructor's teaching

- The instructor did a great job of clearly explaining each lab to us and was available to provide assistance during He never made any question seem stupid and was more than happy to provide assistance with understanding the results and procedure of our labs
- The instructor was clear with what needed to be done in the lab and would help as we needed it
- really helpful in 1 on 1 scenarios where I needed help

What improvements would you suggest?
