a) the course

•Awesome great prof

•I loved this class it was highly interactive and it made it very easy to ask questions to expand your learning The homework's were expansive on the slideshows in class and the exams were do-able

•was fun

b) the instructor's teaching

•Awesome great prof

•He taught very well explaining everything well and expanding when necessary He cares about participation and pushes for people to answer questions

•was very good

What improvements would you suggest?

•Awesome great prof

•Sometimes the book's solutions were wrong for the homework but he would always fix it so that's on the book not him Overall the book was very informative though

•The only struggle I faced was the drag-and-drop elements for questions on the homework in experta In some cases I may have just had one 1 of the 16 terms in the wrong spot but it won't tell us which one is wrong which leads to more confusion and frustration than understanding Other than that the overall material and class is very well taught and easy to understand
