Comments

a) the course

- Its a strength that exams were spread out nicely
- Physics can get a little dull but the fundamental concepts are interesting
- The course materials are very well organized and helpful The video lectures and resources provide clear explanations and are a valuable support for learning the material
- na

b) the instructor's teaching

- A strength is that the instructor encourages class interaction A weakness is that the pre-class questionnaires become very repetitive
- Although Professor Roulston was not my primary instructor I used his video lectures extensively His explanations are clear structured and easy to follow which made a significant difference in my understanding
- Roulston Does a great job of explaining these concepts and making the lecture room a very safe space to ask questions
- na

What improvements would you suggest?

- I do not have any specific suggestions The materials are already very effective and well-prepared
- Not too much
